

## OUR PURPOSE

**WE SOLVE** our customer's most challenging problems by delivering innovative & critical solutions.

**OUR SYSTEMS SUPPORT** the Aerospace & Defense community's mission to provide for the safety and security of our Nation and our Allies.

**WE PROVIDE** best-in-class products, exceptionally responsive support and the lowest risk solutions.

## OUR MARKETS

### AIRBORNE & GROUND TELEMETRY PRODUCTS & SYSTEMS

Delta Information Systems (DIS) is an industry-leading supplier of high-quality aerospace telemetry products for Flight Test, Missile Test, Range Safety, Launch Support and Satellite Command and Control applications.

Our product offerings address the complete telemetry chain from Data Acquisition, Storage, Transport and Distribution to Telemetry Processing and Display.

DIS customers include all DoD entities, all Major Primes, Integrators, Gov Labs, Aircraft & Missile Manufacturers, & Launch Facilities.

We have led the telemetry community for over 50 years bringing a wealth of technical and application knowledge to our customers.

### MISSION SYSTEMS

Delta Information Systems (DIS) designs and develops sophisticated electronic equipment that is specifically designed to reliably operate in harsh environments.

We deliver critical video communications capability for manned and unmanned Intelligence, Surveillance and Reconnaissance (ISR) programs.

DIS supplies key components to our nations Radar Warning Aircraft, Electronic Warfare Systems and Unmanned Vehicles, Ground Vehicles and Space Systems.

We have supported the DoD and NASA since the 1940's, and continue today with industry leading developments.
